PROFESSIONAL SUMMARY

Senior Flutter Developer with 4+ years of hands-on experience in mobile app development, specializing in cross-platform iOS and Android applications. Expert in building scalable, high-performance production apps using Flutter, Dart, and Clean Architecture. Proven track record in delivering business-driven mobile solutions including e-commerce platforms, on-demand booking systems, secure payment integrations, and real-time features. Strong expertise in state management (Bloc/Cubit, Provider), RESTful APIs, GraphQL, Firebase services, and modern development practices. Successfully deployed 5+ production apps serving thousands of active users with 4.5+ star ratings.

CORE COMPETENCIES

- Mobile App Development: Flutter, Dart, iOS, Android, Cross-platform Development
- Architecture & Design Patterns: Clean Architecture, MVVM, SOLID Principles, Modular Design
- State Management: Bloc (Cubit), Provider, GetX, Riverpod
- Backend Integration: REST APIs, GraphQL, WebSockets, JSON Parsing
- Firebase Services: Authentication, Firestore, Cloud Messaging, Analytics, Crashlytics
- Payment Integration: Stripe, PayPal, Payment Gateways, Secure Transactions
- UI/UX Implementation: Responsive Design, Custom Widgets, Material Design, Cupertino
- Testing & Quality: Unit Testing, Widget Testing, Integration Testing, Code Reviews
- DevOps & Tools: Git, GitHub, CI/CD, App Store Deployment, Google Play Console
- Additional: Maps Integration, Push Notifications, Real-time Updates, Location Services, Agile/Scrum

PROFESSIONAL EXPERIENCE

Senior Flutter Developer — Carecomm

Feb 2025 – Present

- Leading end-to-end development of production e-commerce mobile application (Golden Collections) serving 10,000+ active users with 4.7-star rating on both iOS and Android platforms

- Taking full ownership of core features from architecture design through development, testing, and production deployment, ensuring 99.8% crash-free rate
- Architected and implemented scalable Clean Architecture with MVVM pattern to support complex features including product catalog (500+ items), shopping cart, multi-step checkout, and comprehensive order management system
- Integrated RESTful APIs and GraphQL for optimized data fetching, reducing load times by 40% and improving overall app performance
- Implemented secure payment workflows with PCI-DSS compliant payment gateways, JWT authentication, and real-time order status updates using WebSockets
- Collaborated with cross-functional teams (backend engineers, UI/UX designers, product managers) in Agile environment to deliver bi-weekly releases with new features and improvements

Flutter Developer (Mid-level) — ExtraSoft

Jul 2022 – Nov 2024

- Developed and maintained 5+ production-ready Flutter applications deployed to App Store and Google Play, collectively serving 50,000+ users with average 4.5+ star ratings
- Designed and implemented Clean Architecture using Flutter and Dart with proper separation of concerns (Presentation, Domain, Data layers) ensuring code maintainability and scalability
- Integrated secure payment gateways (Stripe, PayPal) processing 10,000+ monthly transactions, Firebase services (Auth, Firestore, Cloud Messaging), and implemented real-time features using WebSockets
- Built responsive applications consuming RESTful APIs with proper error handling, offline support, and data caching, improving user experience by 35%
- Implemented complex UI/UX designs with custom animations, transitions, and reusable widget libraries, reducing development time by 30%
- Integrated Google Maps, location-based services, geofencing, and push notifications to enhance user engagement by 45%
- Conducted code reviews, mentored junior developers, and established best practices for testing (unit, widget, integration tests) achieving 85% code coverage

KEY PROJECTS

Golden Collections — E-commerce Platform

Live on App Store & Google Play

- Production e-commerce mobile app with comprehensive product catalog, shopping cart, checkout, order tracking, and user account management
- Implemented Clean Architecture with Bloc state management for scalable and maintainable codebase
- Integrated secure payment processing, Firebase authentication, real-time notifications, and order status updates

- Achieved 10,000+ downloads with 4.7-star rating and 99.8% crash-free rate

BeClean & BeTeam — On-Demand Car Wash Platform (UAE)

Dual-App System: Customer App & Service Provider App | Live on App Store & Google Play

- Developed and maintained two integrated Flutter applications for on-demand car wash service operating across UAE market
- BeClean (Customer App): Built comprehensive booking system with service selection, appointment scheduling, secure payment integration, and real-time order tracking using GPS and WebSockets
- BeTeam (Service Provider App): Developed task management system enabling service teams to receive, accept, and manage daily operations with route optimization
- Integrated Firebase services (Authentication, Firestore, Cloud Messaging), push notifications, real-time database updates, and Google Maps with location tracking
- Successfully deployed both apps to production serving 5,000+ active users with 4.6+ star ratings

EDUCATION

Bachelor's Degree in Information Technology

Faculty of Computers and Information, Zagazig University — Graduated 2022

TECHNICAL SKILLS SUMMARY

Languages & Frameworks: Flutter, Dart, Mobile Development (iOS & Android)

State Management: Bloc (Cubit), Provider, GetX, Riverpod

Architecture: Clean Architecture, MVVM, SOLID Principles, Design Patterns

Backend Integration: REST APIs, GraphQL, WebSockets, JSON, Dio, Retrofit

Firebase: Authentication, Firestore, Cloud Messaging, Analytics, Crashlytics, Remote Config

Payment Integration: Stripe, PayPal, Payment Gateways, Secure Transactions

Maps & Location: Google Maps, Location Services, Geolocation, GPS Tracking

Testing: Unit Testing, Widget Testing, Integration Testing, Test-Driven Development (TDD)

Version Control & CI/CD: Git, GitHub, GitLab, Bitbucket, CI/CD Pipelines, Fastlane

Development Tools: Android Studio, VS Code, Xcode, Postman, Charles Proxy

Soft Skills: Agile/Scrum, Team Collaboration, Code Review, Problem Solving, Technical Documentation

LANGUAGES

Arabic: Native

English: Professional Working Proficiency
